Important Notice & Disclaimers

A prospectus for the fund (the "Fund") may be obtained from the Manager or any of its appointed distributors. Investors should read the prospectus before deciding whether to subscribe for or purchase units in the Fund ("Units"). All applications for Units must be made on application forms accompanying the prospectus or otherwise as described in the prospectus. **Past performance of the Fund or the Manager and any prediction, projection or forecast on the economy or markets are not necessarily indicative of the future or likely performance of the Fund or the Manager.** Any extraordinary performance may be due to exceptional circumstances which may not be sustainable. The value of Units and any income from the Fund may fall as well as rise, and is likely to have high volatility due to the investment policies and/or portfolio management techniques employed by the Fund. The above information is strictly for general information only and must not be construed as an offer or solicitation to deal in Units, nor a recommendation to invest in any company mentioned herein. Investments in unit trusts are not obligations of, deposits in, or guaranteed or insured by UOB, UOBAM, or any affiliates or distributors. The Fund may use or invest in financial derivative instruments and you should be aware of the risks associated with investments in financial derivative instruments which are described in the Fund's prospectus. The Fund may invest in capital instruments issued by Singapore-incorporated financial institutions that are classified as Additional Tier 1 ("AT1") or Tier 2 ("T2") under MAS Notice 637 (or equivalent Regulations or Notices applicable to issuers of such instruments in Singapore, collectively, "risk based capital adequacy requirements"), which defines the regulatory requirements, eligibility criteria, and loss-absorbency features of such instruments. AT1 and T2 instruments carry higher risks, including potential write-down at the point of non-viability, as specified under the respective risk-based capital adequacy requirements.

Investors should note that the Fund is not like a conventional unit trust in that an investor cannot redeem his Units directly with UOBAM and can only do so through the participating dealers, Phillip Securities Pte Ltd, Tiger Brokers (Singapore) Pte Ltd, UOB Kay Hian Pte Ltd, Moomoo Financial Singapore Pte Ltd, iFast Financial Pte Ltd and Maybank Securities Pte. Ltd, (either directly or through a stockbroker) if his redemption amount satisfies a prescribed minimum that will be comparatively larger than that required for redemptions of units in a conventional unit trust. An investor may therefore only be able to realise the value of his Units by selling the Units on the Singapore Exchange Limited ("SGX"). Investors should also note that any listing and quotation of Units on the SGX does not guarantee a liquid market for the Units.

An investment in unit trusts is subject to investment risks and foreign exchange risks, including the possible loss of the principal amount invested. Investors may wish to seek advice from a financial adviser before making a commitment to invest in Units. In the event an investor chooses not to seek advice from a financial adviser, the investor should consider carefully whether the Fund is suitable for him.
