IMPORTANT:
CSOP Hang Seng Index Daily (-2x) Inverse Product (the "Product")

- The Product is a derivative product (futures and swap-based product) and is not suitable for all investors. There is no guarantee of the repayment of principal. Therefore your investment in the Product may suffer substantial or total losses.
- The Product is not suitable for holding longer than one day as the performance of the Product over a period longer than one day will very likely differ in amountand possibly direction from the two times inverse performance of Hang Seng Index (the "Index") over that same period (e.g. the loss may be more than 2 times the increase in the Index). The effect of compounding becomes more pronounced on the Product's performance as the relevant index experiences volatility.
- Daily rebalancing of Product's holdings causes a higher level of portfolio transactions than compared to the conventional exchange traded funds. High levels of transactions increase brokerage and other transaction costs.
- Investment in futures contracts involves specific risks such as high volatility, leverage, rollover and margin risks.

Please note that the above listed investment risks are not exhaustive, and investors should read the Prospectus and the Product Key Facts in detail before making any investment decision. Investment involves risks, investment value may rise or fall. Past performance information presented is not indicative of future performance. Investors should not rely on this material alone to make investment decisions.
