Hang Seng Investment Index Funds Series

Hang Seng TECH Index ETF

September 2026

IMPORTANT RISK WARNINGS / FUND INFORMATION FOR HONG KONG INVESTORS

Hang Seng TECH Index ETF ("HSTECH ETF") offers both listed class of Units ("Listed Class Units") and unlisted classes of Units ("Unlisted Class Units"). Switching between Unlisted Class Units and Listed Class Units is not available.
(Capitalised terms used herein but not otherwise defined will have the same meanings as defined in the Hong Kong Offering Document of the Hang Seng Investment Index Funds Series (the "Series") and the relevant Appendix of HSTECH ETF)
Applicable to both Listed Class Units and Unlisted Class Units:

- The investment objective is to match, before fees and expenses, as closely as practicable the total return performance (net of withholding tax) of the Hang Seng TECH Index (the "Index").
- HSTECH ETF may invest in equity securities of companies which have high business exposure to technology related themes and may have a relatively short operating history. Valuations of companies with this theme may be subject to significant instability and fluctuations. In addition, the valuation of companies with this theme may be higher than those of more traditional industries, and HSTECH ETF may suffer a loss when there is a revaluation of these securities.
- HSTECH ETF is subject to risks associated with investing in the industrials, consumer discretionary, healthcare, financials and information technology sectors. An investment in HSTECH ETF may be more vulnerable to price fluctuations of securities of companies in these industries and other factors that particularly affect these industries as compared to an investment in a fund having a more diverse portfolio of investments.
- As HSTECH ETF's investments are concentrated in securities of companies having major business exposure to selected technology themes, and those companies are incorporated in, or with majority of revenue derived from, or with a principal place of business in, the Greater China region, HSTECH ETF is subject to sector and geographical concentration risks and its Net Asset Value is therefore likely to be more volatile than a broad-based fund.
- The Index was launched on 27 July 2020. As such, HSTECH ETF may be riskier than other index funds tracking more established indices with longer operating history.
- HSTECH ETF in general is subject to investment risk, equity market risk, tracking error risk, passive investment risk, risks relating to investments in companies with weighted voting rights, reliance on the same group risk and termination risk.
- Investors of Listed Class Units and Unlisted Class Units are subject to different pricing and dealing arrangements and may be at an advantage or disadvantage depending on market conditions. The Net Asset Value per Unit of each of the Listed Class Units and Unlisted Class Units may be different due to different fees and cost arrangement applicable to the units.
- Investments involve risks and investors may lose substantial part of their investment in HSTECH ETF.

Applicable to Listed Class Units:

- The Listed Class Units of HSTECH ETF is subject to trading risk and reliance on market maker risk.
- For the Listed Class Units of HSTECH ETF, the Manager may at its discretion (i) pay distribution out of the capital or (ii) pay distribution out of gross income while charging/ paying all or part of the Listed Class Units of HSTECH ETF's fees and expenses to/ out of the capital of the Listed Class Units of HSTECH ETF (resulting in an increase in distributable income for the payment of distribution by the Listed Class Units of HSTECH ETF), and thereby effectively pay distributions out of the capital of the Listed Class Units of HSTECH ETF. Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the Net Asset Value per Unit of the Listed Class Units of HSTECH ETF.

Applicable to Unlisted Class Units:

- The Unlisted Class Units of HSTECH ETF is subject to currency and exchange rate control risk.

Investors should not only base on this material alone to make investment decisions, but should read the HSTECH ETF's offering documents (including the full text of the risk factors stated therein) in detail. If investors have any doubt about the contents of this material, they should consult their investment adviser and obtain independent professional advice.

Investment Objective

The HSTECH ETF is an index-tracking fund which aims to match, before fees and expenses, as closely as practicable the total return performance (net of withholding tax) of the Hang Seng TECH Index (the "Index").
