Economic and Market Review

China's A-share market experienced a volatile but ultimately resilient first half of 2026, supported by policy continuity, domestic liquidity conditions, and the continued shift of investor interest toward sectors aligned with high-quality growth. Market sentiment fluctuated across the period as investors balanced improving industrial activity and export resilience against persistent weakness in domestic demand, an ongoing property-sector adjustment, and recurring geopolitical risks. The large-cap segment remained relatively supported by its exposure to policy-sensitive financials, high-quality state-owned enterprises, dividend-oriented names, and selected advanced manufacturing leaders, while growth-oriented segments continued to benefit from China's structural push into artificial intelligence, semiconductors, automation, and high-end industrial upgrading.

China's macroeconomic backdrop remained mixed but broadly stable in the first half. Q1 GDP growth rebounded to 5.0% year-on-year, supported by strong trade activity, resilient production, and continued strength in high-tech and green manufacturing, while retail sales growth remained more subdued, highlighting the uneven nature of the recovery. The World Bank noted that China's economy stayed resilient in early 2026, helped by policy support, high-tech investment, and exports, although weaker domestic demand and the continued property-sector adjustment remained key drags; it projected China's 2026 growth to slow to 4.4% and 2027 growth to 4.3%. These dynamics reinforced a market environment where earnings visibility, balance-sheet strength, dividend discipline, and policy alignment became increasingly important drivers of investor preference.

A) Fund Performance (continued)

Within the equity market, the first half was characterised by sharp style and sector rotations. In the early part of the year, risk appetite was supported by optimism around policy stabilisation, domestic AI infrastructure, semiconductor localisation, and advanced manufacturing. However, global macro uncertainty, elevated geopolitical tensions, and concerns around crowded positioning in certain technology themes led to periodic pullbacks. The large-cap A-share universe benefited from renewed interest in defensive quality, dividend yield, and policy-backed sectors, while technology-related exposure remained a source of upside where earnings delivery and supply-chain relevance were evident. The broader market also reflected a notable divergence between onshore A-shares and offshore China equities, as onshore indices had greater exposure to AI hardware, semiconductors, and domestic strategic industries, while offshore benchmarks were more exposed to internet, platform consumption, and Hong Kong liquidity conditions.

Overall, 1H 2026 underscored the resilience of China's large-cap equity market amid an evolving macroeconomic environment. As policy support increasingly translated into improvements in industrial competitiveness, technological advancement and market confidence, investors continued to favour high-quality companies with leading market positions, strong fundamentals and strategic relevance to China's long-term development priorities. Supported by attractive valuations, ample domestic liquidity and ongoing economic modernisation, large-cap A-shares continued to present compelling investment opportunities.

As of 22 June 2026, five constituents changed during the index review and rebalancing for the FTSE China A50 Index.

A) Fund Performance (continued)

Outlook and Fund Strategy

We remain constructive on China's equity market and the outlook for large-cap A-share companies. As policymakers continue to support economic stabilisation, consumption recovery, industrial upgrading and capital market development, many of China's leading enterprises are well positioned to benefit from improving business conditions and the country's ongoing transition towards higher-quality growth. While external uncertainties and geopolitical developments may continue to create periods of market volatility, we believe the long-term fundamentals of China's core blue-chip companies remain intact.

The FTSE China A50 Index provides exposure to many of China's most established and influential companies across key sectors of the economy. These companies typically possess strong market positions, diversified business franchises, robust balance sheets and significant competitive advantages within their respective industries. As economic activity gradually normalises and policy measures gain traction, these market leaders are expected to remain important beneficiaries of domestic demand recovery, industrial modernisation and productivity enhancement.

Valuations across China's large-cap equity market remain attractive relative to historical averages and major global markets. Combined with ample domestic liquidity, continued policy support and improving corporate fundamentals, this provides a supportive backdrop for long-term investors. Furthermore, ongoing capital market reforms, technological advancement and the development of strategic industries are expected to create new opportunities for many constituent companies within the Index.

Looking ahead, we believe China's equity market is entering a phase where greater emphasis will be placed on earnings quality, competitive positioning and sustainable growth. In such an environment, companies with strong execution capabilities, industry leadership and resilient cash-flow generation are likely to be well positioned to capture opportunities arising from China's evolving economic landscape.

The Fund will continue to seek to closely replicate the performance of the FTSE China A50 Index. We believe the Index remains an effective vehicle for investors seeking exposure to China's core blue-chip companies and the long-term growth potential of the world's second-largest economy. While short-term volatility may persist, we remain optimistic that supportive policy measures, ongoing economic transformation and improving investor confidence will provide a constructive foundation for China's large-cap equity market over the medium to long term.

D) Exposure to derivatives

The global exposure relating to derivative instruments is calculated using the commitment approach:

(i) the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;

(ii) the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and

(iii) the sum of the values of cash collateral received under certain cases.

i) Fair value of derivative contracts and as a percentage of NAV as at 30 June 2026

N/A

ii) There was a net realised gain of SGD 2,214 on derivative contracts during the financial year ended 30 June 2026.

iii) Net gains/(losses) on outstanding derivative contracts marked to market as at 30 June 2026

[1] *Where the underlying scheme is managed by a foreign manager which belongs to the same group of companies as, or has a formal arrangement or investment agreement with, the Singapore manager, the above information should be disclosed on the underlying scheme. In other cases, such information on the underlying scheme should be disclosed only if it is readily available to the Singapore manager.*

M) Soft dollar commissions/arrangements

Subject to the provisions of the Code, UOB Asset Management may from time to time receive or enter into soft dollar commissions/arrangements in the management of the Sub-Fund. The Manager will comply with applicable regulatory and industry standards on soft dollars. The soft dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for the Sub-Fund.

M) Soft dollar commissions/arrangements (continued)

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment. The Manager will not accept or enter into soft dollar commissions/arrangements in respect of the Sub-Fund unless (a) such soft dollar commissions/arrangements can reasonably be expected to assist the Manager in the management of the Sub-Fund, (b) best execution is carried out for the transactions, and (c) no unnecessary trades are entered into in order to qualify for such soft dollar commissions/arrangements.

The Manager does not, and is not entitled to, retain cash or commission rebates for the Manager's own account in respect of rebates earned when transacting in securities for account of the Sub-Fund.

N) Where the scheme offers pre-determined payouts, an explanation on the calculation of the actual payouts received by participants and any significant deviation from the pre-determined payouts

N/A

REPORT OF THE TRUSTEE

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of UETF, namely UOBAM FTSE China A50 Index ETF (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, set out on pages 16 to 41, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee
STATE STREET TRUST (SG) LIMITED

Authorised signatory

STATEMENT BY THE MANAGER

In the opinion of UOB Asset Management Ltd, the accompanying financial statements set out on pages 16 to 41, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and portfolio holdings of the sub-fund of UETF, namely UOBAM FTSE China A50 Index ETF (the "Sub-Fund") as at 30 June 2026, and the financial performance and movements of unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Fund will be able to meet its financial obligations as and when they materialise.

INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF THE SUB-FUND OF UETF
(CONSTITUTED UNDER A TRUST DEED IN THE REPUBLIC OF SINGAPORE)

Our Opinion

In our opinion, the accompanying financial statements of the sub-fund of UETF, namely UOBAM FTSE China A50 Index ETF (the "Sub-Fund"), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 30 June 2026, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

What we have audited

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 30 June 2026;
- the Statement of Financial Position as at 30 June 2026;
- the Statement of Movements of Unitholders' Funds for the financial year then ended;
- the Statement of Portfolio as at 30 June 2026; and
- the Notes to the Financial Statements, including material accounting policy information.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code"), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the financial statements of public interest entities in Singapore. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF THE SUB-FUND OF UETF
(CONSTITUTED UNDER A TRUST DEED IN THE REPUBLIC OF SINGAPORE)

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

Other Information

The Sub-Fund's manager (the "Manager") is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF THE SUB-FUND OF UETF
(CONSTITUTED UNDER A TRUST DEED IN THE REPUBLIC OF SINGAPORE)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.

- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF THE SUB-FUND OF UETF
(CONSTITUTED UNDER A TRUST DEED IN THE REPUBLIC OF SINGAPORE)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lim Kheng Wah.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1 General

UETF is a Singapore-registered umbrella fund, which offers one sub-fund, UOBAM FTSE China A50 Index ETF (the "Sub-Fund"). The Sub-Fund is constituted under a Trust Deed in Singapore between UOB Asset Management Ltd (the "Manager") and State Street Trust (SG) Limited (the "Trustee"). The Trust Deed is governed by the laws of the Republic of Singapore.

The investment objective of the Sub-Fund is to provide investment results that, before fees, costs and expenses (including any taxes and withholding taxes), closely correspond to the performance of the FTSE China A50 Index.

Subscriptions and redemptions of the units are denominated in the Singapore Dollar.

2 Material accounting policy information

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued by the Institute of Singapore Chartered Accountants.

(b) Recognition of income

Dividend income is recognised when the right to receive payment is established. Interest income is recognised on a time proportion basis using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

2 Material accounting policy information (continued)

(c) Investments

Investments are classified as financial assets at fair value through profit or loss.

(i) Initial recognition

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net changes in fair value on investments are included in the Statement of Total Return in the year in which they arise.

(iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sale of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

(d) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the financial year end date. The quoted market price used for investments held by the Sub-Fund is the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

(e) Foreign currency translation

(i) Functional and presentation currency

The performance of the Sub-Fund is measured and reported to the investors in the Singapore Dollar. The Manager considers the Singapore Dollar as the currency of the primary economic environment in which the Sub-Fund operates. The financial statements are presented in the Singapore Dollar, which is the Sub-Fund's functional and presentation currency.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

2 Material accounting policy information (continued)

(e) Foreign currency translation (continued)

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Total Return within "Net foreign exchange gains/(losses)". Translation differences on non-monetary financial assets and liabilities are also recognised in the Statement of Total Return within "Net gains/(losses) on investments".

(f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(h) Cash and bank balances

Cash and bank balances comprise cash at banks which are subject to an insignificant risk of changes in value.

(i) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(j) Expenses

Expenses are recognised in the Statement of Total Return as the related services are performed.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

2 Material accounting policy information (continued)

(k) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided.

(l) Financial derivatives

Financial derivatives including forwards and swaps may be entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provision of the Trust Deed and the Code on Collective Investment Schemes.

Financial derivatives outstanding on the financial year end date are valued at the forward rate or at the current market prices using the "mark-to-market" method, as applicable, and the resultant gains and losses are taken up in the Statement of Total Return.

When a financial derivative expires, or is sold or terminated, the gains or losses are taken up in the Statement of Total Return.

(m) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account, to be paid out on the distribution date. The amount shall not be treated as part of the property of the Sub-Fund. Distributions are accrued for at the financial year end date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

(n) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption for each respective class. The Sub-Fund's net asset value per unit is calculated by dividing the net asset attributable to the holders of each class of units with the total number of outstanding units for each respective class.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

2 Material accounting policy information (continued)

(o) Income taxes

Current income tax for current year is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Statement of Financial Position date. The Manager periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of an asset or liability that affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax is measured at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the Statement of Financial Position date.

Current and deferred income taxes are recognised as income or expenses in the Statement of Total Return, except to the extent that the tax arises from a transaction which is recognised directly in net assets attributable to unitholders.

3 Income tax

	UOBAM FTSE China A50 Index ETF	
	2026	2025
	$	$
Overseas income tax	**79,633**	78,170

The Sub-Fund has been approved by the Monetary Authority of Singapore ("MAS") under the Enhanced-Tier Fund ("ETF") Scheme (section 13U of the Income Tax Act 1947 and the relevant Regulations). Subject to certain conditions being met on an annual basis, the Sub-Fund may enjoy Singapore corporate income tax exemption on "specified income" derived from "designated investments" for the life of the Sub-Fund. Losses from "designated investments" are correspondingly disregarded. The terms "specified income" and "designated investments" are defined in the relevant income tax regulations.

The Trustee of the Sub-Fund has assessed and is satisfied that the Sub-Fund has met the requisite conditions under the ETF Scheme for the current financial year. The Trustee of the Sub-Fund will also ensure that the Sub-Fund fulfills its reporting obligations under the ETF Scheme.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

3 Income tax (continued)

The overseas income tax represents tax withheld on foreign sourced income.

(a) Income tax expense

The tax on profit before tax differs from the theoretical amount that would arise using the Singapore standard rate of income tax as follows:

7 Units in issue

During the financial years ended 30 June 2026 and 2025, the numbers of units issued, redeemed and outstanding were as follows:

	UOBAM FTSE China A50 Index ETF	
	2026	2025
Units at the beginning of the financial year	**10,152,000**	9,852,000
Units created	**1,290,000**	700,000
Units cancelled	**(550,000)**	(400,000)
Units at the end of the financial year	**10,892,000**	10,152,000
	$	$
Net assets attributable to unitholders	**28,652,314**	21,592,297
Net asset value per unit	**2.6305**	2.1269

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

7 Units in issue (continued)

Distributions are accrued for at the financial year end date if the necessary approvals have been obtained and a legal or constructive obligation has been created, for the purpose of determining the accounting net asset values in the financial statements.

There is insignificant difference between the net assets attributable to unitholders per unit per financial statements and the net assets attributable to unitholders per unit for issuing/redeeming of units.

8 Financial risk management

The Sub-Fund's activities expose it to a variety of market risk (including foreign exchange risk, price risk and interest rate risk), liquidity risk and credit risk. The Sub-Fund's overall risk management programme seeks to minimise potential adverse effects on the Sub-Fund's financial performance. The Sub-Fund may use financial futures contracts, financial options contracts and/or foreign currency contracts subject to the terms of the Trust Deed to moderate certain risk exposures. Specific guidelines on exposures to individual securities and certain industries are in place for the Sub-Fund at any time as part of the overall financial risk management to reduce the Sub-Fund's risk exposures.

The Sub-Fund's assets principally consist of investments in equity investments and cash. They are held in accordance with the published investment policies of the Sub-Fund. The allocation of assets between the various types of investments is determined by the Manager to achieve its investment objectives.

(a) Market risk

Market risk is the risk of loss arising from uncertainty concerning movements in market prices and rates, including observable variables such as interest rates, credit spreads, exchange rates, and others that may be only indirectly observable such as volatilities and correlations. Market risk includes such factors as changes in economic environment, consumption pattern and investors' expectation etc. which may have significant impact on the value of the investments. The Sub-Fund's investments are substantially dependent on changes in market prices and are monitored by the Manager on a regular basis so as to assess changes in fundamentals and valuation. Although the Manager makes reasonable efforts in the choice of investments, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the asset value of the Sub-Fund. Guidelines are set to reduce the Sub-Fund's risk exposures to market volatility such as diversifying the portfolio by investing across various industries, alternatively, the Sub-Fund may be hedged using derivative strategies.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

8 Financial risk management (continued)

(a) Market risk (continued)

(i) Foreign exchange risk

The Sub-Fund has monetary financial assets and liabilities denominated in currencies other than the Singapore Dollar and it may be affected favourably or unfavourably by exchange rate regulations or changes in the exchange rates between the Singapore Dollar and such other currencies. The Manager may at his discretion, implement a currency management strategy either to reduce currency volatility or to hedge the currency exposures of the Sub-Fund.

The tables below summarise the Sub-Fund's exposures to foreign currencies at the end of the financial year.

UOBAM FTSE China A50 Index ETF

Investments, which are the significant items in the Statement of Financial Position, are exposed to foreign exchange risk and other price risk. Other price risk sensitivity analysis includes the impact of foreign exchange risk on non-monetary investments. The Sub-Fund's net financial assets comprise significantly of non-monetary investments, hence foreign exchange risk sensitivity analysis has not been presented on the remaining financial assets.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

8 Financial risk management (continued)

(a) Market risk (continued)

(ii) Price risk

Price risk is the risk of potential adverse changes to the value of financial investments because of changes in market conditions and volatility in security prices. The Sub-Fund is designated to track the performance of the FTSE China A50 Index, therefore the exposure to price risk in the Sub-Fund will be substantially the same as the FTSE China A50 Index. As an exchange traded fund, the Manager manages the Sub-Fund's exposure to price risk by ensuring the key characteristics of the portfolio, such as security weight and industry weight, is closely aligned to the FTSE China A50 Index characteristics.

	2026		2025	
Benchmark component	**Volatility**	**Net impact to net assets attributable to unitholders**	Volatility	Net impact to net assets attributable to unitholders
	%	**$**	%	$
UOBAM FTSE China A50 Index ETF				
FTSE China A50 Index	**20**	**5,742,935**	20	4,285,515

(iii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Manager will regularly assess the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly to control the impact of the interest rate risk. The Sub-Fund's overall market positions are monitored frequently.

Other than cash and bank balances which are at short term market interest rates, and therefore subject to insignificant interest rate risk, the Sub-Fund's financial assets and liabilities are largely non-interest bearing.

Hence, no sensitivity analysis has been presented separately.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

8 Financial risk management (continued)

(b) Liquidity risk

The Sub-Fund is exposed to daily cash redemptions and disbursements for the settlements of purchases. The Manager therefore ensures that the Sub-Fund maintains sufficient cash and bank balances and that it is able to obtain cash from the sale of investments held to meet its liquidity requirements. Reasonable efforts will be taken to invest in securities which are traded in a relatively active market and which can be readily disposed of.

The Sub-Fund's investments in quoted securities are considered to be readily realisable as they are quoted on established regional stock exchanges.

The Manager may from time to time employ derivatives to implement a portfolio strategy to reduce risk or for the purpose of efficient portfolio management. Market liquidity of complex derivatives are significantly less than traditional investment instruments and such positions may therefore require a longer time to reverse than would typically be expected for traditional investment instruments. No such investments were held at the financial year end date.

The tables below analyse the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	UOBAM FTSE China A50 Index ETF

Payables	59,702	-	-

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

8 Financial risk management (continued)

(c) Credit risk

The Sub-Fund takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. The Sub-Fund's credit risk is concentrated on cash and bank balances and amounts or securities receivable on the sale and purchase of investments respectively. In order to mitigate exposure to credit risk, all transactions in listed securities are settled/paid for upon delivery and transacted with approved counterparties using an approved list of brokers that is regularly assessed and updated by the Manager.

The table below summarises the credit rating of banks and custodians in which the Sub-Fund's assets are held as at 30 June 2026 and 2025.

The credit ratings are based on the Viability ratings published by Fitch.

UOBAM FTSE China A50 Index ETF

	Credit rating as at 30 June 2026	Credit rating as at 30 June 2025
Bank and custodian		
State Street Bank and Trust Company	**aa-**	aa-

The maximum exposure to credit risk at the financial year end date is the carrying amount of the portfolio of investments and cash and bank balances as presented in Statement of Financial Position.

For purposes of impairment assessment, the Sub-Fund's assets which are measured at amortised cost are considered to have low credit risk as they are not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for these receivables, the loss allowance is measured at an amount equal to 12-month expected credit losses ("ECL"). The ECL for these assets as at the end of the reporting period is not significant.

(d) Capital management

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

8 Financial risk management (continued)

(e) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following tables analyse within the fair value hierarchy, the Sub-Fund's financial assets and liabilities (by class) measured at fair value at 30 June 2026 and 2025:

	UOBAM FTSE China A50 Index ETF			
	Level 1	**Level 2**	**Level 3**	**Total**
	$	**$**	**$**	**$**
As at 30 June 2026				
Assets				
Portfolio of investments				
- Quoted equities	**28,548,223**	**-**	**-**	**28,548,223**
Total	**28,548,223**	**-**	**-**	**28,548,223**

	Level 1	Level 2	Level 3	Total
	$	$	$	$
As at 30 June 2025				
Assets				
Portfolio of investments				
- Quoted equities	21,580,213	-	-	21,580,213
Total	21,580,213	-	-	21,580,213

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, comprise of listed equities. The Sub-Fund does not adjust the quoted price for these instruments.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments are carried at amortised cost; their carrying values are reasonable approximation of fair value.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

9 Related party transactions

(a) The Manager and the Trustee of the Sub-Fund are UOB Asset Management Ltd and State Street Trust (SG) Limited, respectively. The Manager is a subsidiary of United Overseas Bank Limited while the Trustee is a subsidiary of State Street Bank and Trust Company.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2026

11 Financial ratios

	UOBAM FTSE China A50 Index ETF	
	2026	2025
	$	$
Total operating expenses	**232,280**	220,991
Average daily net assets value	**25,038,552**	20,270,972
Expense ratio[1]	**0.93%**	1.09%
Lower of total value of purchases or sales	**7,302,009**	10,129,546
Average daily net assets value	**25,038,552**	20,270,972
Turnover ratio[2]	**29.16%**	49.97%

1 *The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the Sub-Fund's expense ratio at financial year end was based on total operating expenses divided by the average net assets value respectively for the financial year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, interest expense, distribution paid out to unitholders, foreign exchange gains/(losses), front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net assets value is based on the daily balances.*

2 *The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net assets value.*
