

CSOP NVIDIA Daily (2x) Leveraged Product

Stock Code : 7788/9788

All Information as of 31 July 2026

IMPORTANT:

With effect from 3 August 2026, the Products will adopt a flexible leverage structure under which the leverage factor of each leveraged Product may vary on a daily basis depending on market circumstances, subject to the maximum leverage factor of two times (2x).

CSOP NVIDIA DAILY (2X) LEVERAGED PRODUCT

- CSOP NVIDIA Daily (2x) Leveraged Product (the "Product") is a sub-fund of CSOP Leveraged and Inverse Series, an umbrella unit trust established under Hong Kong law. Units of the Product (the "Units") are traded in HKD and USD on The Stock Exchange of Hong Kong Limited (the "SEHK") like stocks. The Product uses a swap-based synthetic replication strategy by investing directly in Swaps, so as to give the Product twice (2x) the Daily performance of the Underlying Stock.
- This is a leveraged product. It is different from conventional exchange traded funds as it seeks leveraged investment results relative to the Underlying Stock and only on a Daily basis.
- The Product is concentrated in a single Underlying Stock. Given its non-diversified and leveraged nature, the Product is subject to extreme price volatility and may become non-viable within a short period. You may lose a significant portion or all of your investment within one day.
- Under exceptional circumstances where the Product become non-viable, CSOP may use its discretion to deviate from the investment strategy or take defensive measures, which may include liquidating swap positions and suspending trading of the Product and CSOP will issue a notice to inform investors.
- The Product is not intended for holding longer than one day as the performance of the Product over a longer period may deviate from and be uncorrelated to the leveraged performance of the Underlying Stock over the period.
- The Product is designed to be used for short term trading or hedging purposes, and is not intended for long term investment.
- The Product only targets sophisticated trading-oriented investors who understand the potential consequences of seeking Daily leveraged results and the associated risks and constantly monitor the performance of their holdings on a Daily basis
- NVIDIA Corp is subject to the risk of market movements due to the evolving needs of its large markets and identifying new products, services and technologies; competition; supply chain issues; manufacturing issues. Given it's pivotal in the development of artificial intelligence (AI), NVIDIA Corp is also subject to risks concerning responsible use of AI; as well as increasing regulatory scrutiny and legal issues regarding AI. In light of NVIDIA Corp's correlation to novel sectors such as AI, it is subject to extreme market volatility.
- The trading price of the Units on the SEHK is driven by market factors such as the demand and supply of the Units. Units may trade at a substantial premium or discount to the NAV.

Please note that the above listed investment risks are not exhaustive, and investors should read the Prospectus and the Product Key Facts in detail before making any investment decision. Investment involves risks, investment value may rise or fall. Past performance information presented is not indicative of future performance. Investors should not rely on this material alone to make investment decisions.

Investment Objective

The investment objective of the Product is to provide investment results that, before fees and expenses, closely correspond to twice (2x) the Daily performance of the common stock of NVIDIA Corp (NASDAQ: NVDA) (the "Underlying Stock"). The Product does not seek to achieve its stated investment objective over a period of time greater than one day.
